DETAILED ACTION

Allowable Subject Matter

Claims 1-6 allowed.

The following is a statement of reasons for the indication of allowable subject matter: claim 1 recites, inter alia, "means for counting the current time... a first and second chronograph gear trains, each intended to carry a hand which respectively assure the display of a first and a second measured time... a switching device arranged such that actuation thereof causes the engaged coupling clutch to be released and the released coupling clutch to be engaged" and in combine with the remain limitations of those claims above. The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include the above limitations. Although Igarashi et al. disclose an electronic watch displaying the current time and only one chronograph function and Fondin et al. disclose a chess clock having two chronograph function, they do not disclose the above-mentioned limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Fondin et al. [US 2004/0037169] ; Schneider [US 4,464,060] ; Akakane et al. [US 6,466,518]; Igarashi et al. [US 2001/0043512] .
